

Orbis

Marine Relay Base

Orbis Marine Relay Base dimensions

Product overview

Product	Marine Relay Base
Part No.	ORB-RB-40004-MAR

Approvals

Product information

The Orbis Marine Relay Base incorporates a single pole, voltage-free changeover contact for switching ancillary equipment. When the detector changes to the alarm state, the relay is energised, causing the contact to change state. The contact will remain in this condition until the detector is reset.

- Grouped terminals to make wiring easy
- Multiple fixing centres
- LED alignment mark
- Cable stripping guide
- Continuity link for voltage testing of zone wiring prior to commissioning
- Detector locking mechanism
- Contact rating 1 Amp at 30 V

Marine Equipment Directive 2014/90/EU

The Orbis Marine Relay Base complies with the essential requirements of the Marine Equipment Directive 2014/90/EU.
